

Linguist
SQIL

The Linguist identifier (L) identifies positions that require proficiency in a designated foreign language. The 2-digit language identification code contained in AR 611-6 will be used to identify the specific language in the 8-9th characters of the MOS code. Similarly, language identification codes will be used to identify qualified linguists who have been awarded any SQI other than L. Must meet Listening Comprehension and Reading Comprehension for foreign languages requirement outlined in AR 611-6, by scoring a minimum of 2 in listening and 2 in reading on the Defense Language Proficiency Test (DLPT). Since linguist skills are rare, positions will be considered to require language qualified personnel only when such qualification is mandatory for efficient performance in the job. Language identification codes contained in AR 611-6 will be used in MTOE and TDA to identify language requirements of positions.
